Pi Kappa Phi Foundation

International Scholars Award

Application 2010

Background

The increasingly complex world of international economics and business will require leadership that is both knowledgeable and understanding of the interactions between various cultures, political and economic systems. Globalization and its manifold impacts on these systems will be a challenge and opportunity for tomorrow's leader. As Microsoft founder and former CEO, Bill Gates, was quoted as saying, "This is a very exciting time in the world. It's not just that the personal computer has come along as a great tool. The whole pace of business is moving faster. Globalization is forcing companies and people to do things in new ways."

To help prepare students to keep pace in this ever-changing business climate, the Pi Kappa Phi Foundation has created the International Scholars Award (ISA). Endowed through the generosity of two fraternity alumni members, the goal of the ISA is to provide an opportunity for outstanding student leaders who might not otherwise be able to afford a study abroad experience, the opportunity to gain first hand knowledge and understanding of the various business, economic and cultural differences inherently found in other nations.

The Pi Kappa Phi Foundation believes that the problems of tomorrow will require thoughtful and engaged leadership that not only understands the basics of international business and how markets work, but the nuances of cultural and language dissimilarities between nations. The ISA seeks to empower students to reach beyond their college community and find a more competitive and compelling world just beyond their grasp.

Criteria | Eligibility

All initiated, undergraduate members of Pi Kappa Phi currently maintaining a full course of study (at least 12 credit hours) are eligible to apply. However, competitive applicants will have a proven record of academic success as evidenced by their official university transcript and, at a minimum, will have a cumulative grade point average of 3.0. Applicants must also possess leadership ability as demonstrated by their active involvement in the chapter and within their campus community.

The focus of the award is to enable a worthy student or students to participate in a study abroad program who might not otherwise have the resources to do so. Therefore, a student's financial need will be considered by the Review Committee and applicants are asked to submit a sample budget [see page 2 for details] of their anticipated expenses while abroad, including a listing of all cash sources that will help pay for the experience.

Also, appropriate documentation of an applicant's acceptance into an accredited study abroad program must be submitted before the application is considered complete. A formal acceptance letter or correspondence from the program's director shall suffice. Lastly, applicants must submit answers to the essay questions noted at the end of this application and submit one letter of recommendation.

In order for your application to be considered, you must comply with the following:

- 1. You are an initiated member who is in good standing with the Fraternity. Your chapter Treasurer must initial the application attesting to your good standing status.**
- 2. You have a cumulative GPA of 3.0 or better.**

Recipients of an International Scholars Award may request an award up to a **\$4000.00**, but such requests must be substantiated by the budget submitted for review. The exact amount will be determined by the Foundation upon review of the application and submitted budget. Award payment will be sent directly to the host institution and will be applied against all eligible tuition and student fees. It will be the recipient's responsibility to ensure that the Pi Kappa Phi Foundation has the needed information in order to fulfill payment.

Award recipients can also expect to receive the following recognition:

The purpose of this is to ensure quality control in the scholarship program and to maintain this initiative's ongoing educational relevance.
